

# Fuel Economy - Used Cars

Reg No. OY52HJK

CO<sub>2</sub> emission figure (g/km)

## Fuel cost (estimated) for 12,000 miles

A fuel cost figure indicates to the consumer a guide price for comparison purposes. This figure is calculated by using the combined drive cycle (town centre and motorway) and average fuel price. Re-calculated annually, the cost per litre as at March 2025 is - petrol 139p, diesel 147p and LPG 95p. Electricity cost is 44.0p per kWh.

**£3,621**

## VED for 12 months

Vehicle excise duty (VED) or road tax varies according to the CO<sub>2</sub> emissions and fuel type of the vehicle. Cars with a list price of over £40,000 when new are subject to an additional rate per year on top of the standard rate, for five years which has not been included here.

**£430**

### \*Important Note

The fuel consumption figure shown is taken from the official test results obtained from this vehicle type when new. It is intended to provide a standard figure for comparing the relative fuel economy of different vehicles of a similar age and condition and does not represent the average fuel consumption that will be achieved on the road. A number of factors not included in the official new vehicle test will affect the fuel consumption achieved on the road including: vehicle age, how it has been maintained, road/weather conditions and driving style.

Make/Model:

AUDI A8 4.2 QUATTRO AUTO

Engine Capacity (cc):

04172

Fuel Type:

Petrol

Transmission:

5 Speed Auto

## Fuel Consumption:

Drive cycle	Litres/100km	Mpg
Urban	19.5	14.5
Extra-urban	9.2	30.7
Combined	13.5	20.9

Year of First Registration: 03 10 2002
