IVECO X-WAY

Your IVECO X-WAY at a glance

A new colour language:
IVECO Grey meets a touch of red

Performance
and mission focus

Superior onboard living
and driving ergonomics

Ideal set-up for any mission

Born connected. Built to evolve
with over-the-air capabilities
from day one

IVECO Services to maximise uptime
and business productivity

Engineered for your success

Profitability and sustainability

Improved fuel efficiency and reduced CO_2 emissions delivered by the XCursor engine, powertrain and vehicle controls, now further enhanced by aerodynamic refinement. Up to 10% as certified by TÜV.

Unique design and driving comfort

Superior onboard living thanks to the interior design, dashboard with customisable materials and trims, TFT instrument cluster, infotainment and mirror cams. State-of-the-art “car-like” feeling: fully adjustable steering wheel and lower driving position giving enhanced comfort and responsiveness.

Advanced assistance and safety

GPS Predictive Drive as standard, airbag, new Highway Assist with Lane Centring and a full comprehensive set of safety functionalities, including ADDW, to protect road users at 360°.

Flexible solution

Three different vehicle heights ON, ON+, OFF, wide offer of axles, off-road driving aids and Hi-Traction to suit every mission.

Born connected. Built to evolve with over-the-air capabilities from day one

Over-the-air capabilities help keep your IVECO vehicle up to date, enhancing performance and maximising time on the road.

IVECO Services for your daily work

Services designed to simplify your work and protect your business. Keep your day running smoothly and your vehicle productive.

Exterior style

Stylish in all environments

A wide range of front grilles are available to suit your taste: glossy and metal finishes, matt or even body-coloured elements allowing operators to adapt their IVECO X-Way style to mirror their corporate branding.
The new IVECO logo is available in chrome or matt gun metal finishes. The front face includes LED or traditional headlamps with LED daytime running lights as standard, radars for ADAS functions, steps and grab handles to access the windscreen and side air deflectors designed to keep the door and mirrors clear even in adverse weather conditions.
The bumper can be chosen in plastic, hybrid in black or cab colour and full metallic bumper to match the requirements to your specific mission.

The right cab for you

Choose from the full width AS sleeper cab with low or high roof for longer distance use or the compact AT sleeper cab with low or high roof for more regional missions. For those missions that don’t require a sleeper cab, the AD day cab is the ideal choice.

A driver-centric touch and feel for superior comfort and safety

Superior onboard living thanks to the ergonomic interior design, customisable dashboard finishing, great driving position, full TFT instrument cluster and infotainment (10 inch) and electric parking brake. State-of-the-art car like feeling: fully adjustable steering wheel and lower driving position for enhanced comfort and responsiveness.

A new interior design

The driver and passenger's comfort is guaranteed by a choice of seats, all with full backrest. Choose from vinyl, fabric or leather, heated, air suspension, lumbar support and even seat belt colour. With the improved ergonomics of the steering wheel and controls, every driver will be comfortable.

Everything in its place

Spacious drawers and compartments for storing documents and personal belongings, both inside and under the cab. 2 USB ports, 12V and 24V power sockets and 4 cup and bottle holders are standard on the dashboard.

Foldable table

The foldable table on the passenger side of the dash panel is ideal for those tasks in the cab that require a flat worksurface with a useful fast-charging USB-C socket alongside.

Infotainment

Enjoy your life on board with the 10-inch high-resolution colour display integrated into the dashboard. Navigation is simple and intuitive, and you can link your mobile device with mirroring and use IVECO Driver Pal with the in-cab microphone. TomTom live navigation, over-the-air update and the new IVECO App Store are all available here.

AI

Perfect for your mission

With the IVECO X-Way, you can find the ideal vehicle for those missions that feature off-road work.

The ideal set up for your mission

Choose the configuration that best suits your needs:

ON configuration

Perfect for mostly on-road missions

- On-road approval (N3).
- Optimal road comfort and reinforced frame.
- Easy cabin access and excellent visibility for safer working conditions.

ON+ configuration

Perfect for missions on differing terrains, ensuring vehicle mobility up to the last mile

- On-road approval (N3).
- Approach angle and ground clearance higher than ON configuration.
- Improved bumper protection.

OFF configuration

Perfect for mostly off-road missions

- Off-road approval (N3G).
- Ability to tackle steep slopes and approach angles to deliver the best performance during the off-road sections of your mission.
- Lower maintenance and repair costs compared to pure off-road vehicles.

New axle versions and conversion capabilities

New high efficiency single reduction drive axle 18x HE
ideal for heavy haulage and light off-road missions with GCW=50/60t

Reinforced 9 ton tag axle now available on rigid 6x2P diesel and CNG/LNG. Perfect for rear loader refuse collectors. New pre-equipment to facilitate body builder installations with electric/electronic interfaces. Push switches in the upper shelf and the dashboard, pre-installed wirings from cab to chassis and from BB Connectors to windscreen header panel, dedicated slots for additional rocker switches in the dashboard.

Tipper

The IVECO X-Way tipper will get you everywhere you need to go: Choose from a wide range of wheelbases, axle configurations, single or hub reduction, on and off-road setups, powerful engines. Create a configuration to match any customer need, maximising the profitability of your business.

Hook & skip loader

The IVECO X-Way offers outstanding manoeuvrability, compact overall dimensions, ground clearance and traction you need from your hook or skip loader. The extensive range of configurations provides the flexibility to match your mission precisely: operations with frequent loading and unloading cycles every day; regional transport with a limited number of cycles a day; urban missions requiring excellent manoeuvrability; or driving on difficult terrain.

Crane & platform

The IVECO X-Way can be fitted with every type of crane, from flatbed to platform cranes. The robustness and modular concept of the vehicle enables cranes to be fitted at the back of the cab, in a central position or at the rear of the vehicle with no compromise on stability.

Tipper semi-trailer

IVECO X-Way tractors combine the best fuel efficiency engine XC13, the new ADAS features and the new AS cab completely redesigned around driver's needs. These features give you the confidence to tackle the "last mile" with ease and the difficult conditions of job sites when making your deliveries, while ensuring high productivity, safety and excellent total cost of ownership.

Timber

The IVECO X-Way delivers the best power in its class up to 580hp and offers the ideal features to load, transport and unload timber with ease. It will transport your logs comfortably in forests and woods, on the roads, and all the way to your destination thanks to the powerful engines, 3 vehicle setups, the robust chassis, big payload capacity and hydrostatic drive.

Gully cleaner

The IVECO X-Way is optimised for easy installation of a gully cleaner body and to provide all the features you need. High performance is essential in this mission, and the new xC13 provides up to 2,600Nm. The clutch independent sandwich PTO delivers the torque required for the suction pump.

Mixer

The IVECO X-Way pushes the boundaries when it comes to its exceptionally low kerb weight: with an 8x4 chassis set up for a concrete mixer, featuring a 9-litre engine with up to 400hp (294kW) and 1,700Nm, delivers outstanding fuel efficiency.

Refuse collection

The IVECO X-Way with the new 9 ton tag axle is ideal for rear loading refuse collection and other missions with high rear loads.

HI-TRACTION hydrostatic drive

The HI-TRACTION hydrostatic traction system automatically switches to all-wheel drive to give you maximum grip when you need it most, improving handling and driving safety and increasing fuel efficiency.

Now also available with creep function, the system allows the IVECO X-Way to seamlessly tackle the last mile off-road, offering outstanding performance in off road sections.

HI-TRACTION hydrostatic is only available for diesel engines.

Outstanding driver assistance

The latest European General Safety Regulations have brought to the IVECO X-Way the addition of new and improved safety features for Advanced Driver Assistance Systems with direct function and Advanced Driver Distraction warnings.
In addition, IVECO ON and the Professional Safety Report provide the data you need to monitor safety risks—you get actionable insights to improve driving behaviour, reduce accidents and lower insurance costs.

ALC (Alcohol Interlock)
Prevents people whose driving is impaired due to alcohol consumption from driving a motor vehicle.

ESS (Emergency Stop Signal)
Warns the road users behind the vehicle via hazard lights, when braking heavily.

BSIS (Blind Spot Information System)
Detects road users moving at 3-12mph in the nearside blind spot zone, providing visual and acoustic warnings.

MOIS (Moving Off Information System)
Detects nearby road users in the front blind spot zone, providing visual and acoustic warnings.

REV (Reversing Detection)
Provides a clear view of road users and obstacles behind the vehicle when reversing, thanks to a camera placed in the rear crossmember.

ADDW (Advanced Driver Distraction Warning)
The system monitors the driver's behaviour above 12mph through an infrared camera. If detects a distraction, it provides a visual pop-up in the cluster and audible warnings.

ISA (Intelligent Speed Assist)
Is a system which advises drivers of the current speed limit by providing visual and acoustic feedback.

AEBS (Advanced Emergency Braking System)
Now available on steel bumper, recognises a potential front collision, warning the driver and slowing down the vehicle as much as possible. Guaranteed full braking from 50mph to 0mph.

LDWS (Lane Departure Warning System)
Warns the inattentive driver of the departure of the vehicle from the lane when turn indicators are not activated.

High-efficiency engines

XCursor 13 diesel brings state-of-the-art powerline technologies such as higher fuel injection pressure (2,500bar), new lighter cylinder block, crankshaft and camshaft, smart auxiliaries and friction reductions.
Top engine rating produces up to 580hp and 2,800Nm of torque, perfect for heavy-duty missions that require maximum performance, while 500hp rating, with 2,600Nm of torque is the best to maximise efficiency on long-haul missions.
Engine weight has been reduced by 10% and specific engine oil has been developed to further reduce frictions.
The new high performance engine brake is the best in the market, capable of substituting the Intarder in most missions.

XCursor 13 Natural Gas version produces 500hp and 2,200Nm of torque while achieving up to 10% in fuel consumption reduction. This powerful performance comes with the environmental advantages of natural gas, which can help to significantly reduce vehicle emissions, with up to 90% reduction in CO_2 when run on biomethane.

IVECO Services Solutions

At IVECO, we deliver mobility solutions that best meet your needs. Our goal is to help you reduce Total Cost of Ownership while increasing productivity by focusing on vehicle health and enhancing the driver experience, through an integrated portfolio designed to support your mission.

Uptime

Unexpected stops cost you. IVECO Uptime prevents them. Through continuous monitoring and remote diagnostics delivered by the IVECO Uptime Center and network, we reduce unplanned downtime by up to 24%.

Productivity & Efficiency

In transport, profitability depends on daily decisions. IVECO Productivity & Efficiency gives you the insights to make them. With vehicle data visibility and analytics, it helps reduce costs by up to 5% while improving safety, routes and compliance.

Driver Care

Drivers operate under constant pressure. IVECO Driver Care reduces complexity and cognitive load. Through voice interaction, connected navigation and real-time guidance, it keeps drivers focused. Accidents can be reduced up to 5%.

Safety & Security

Managing risk requires visibility and control. IVECO Safety & Security delivers both. With IVECO ON connectivity and continuous monitoring, it enables early detection of unsafe behaviour and reduces accident exposure by up to 25%.

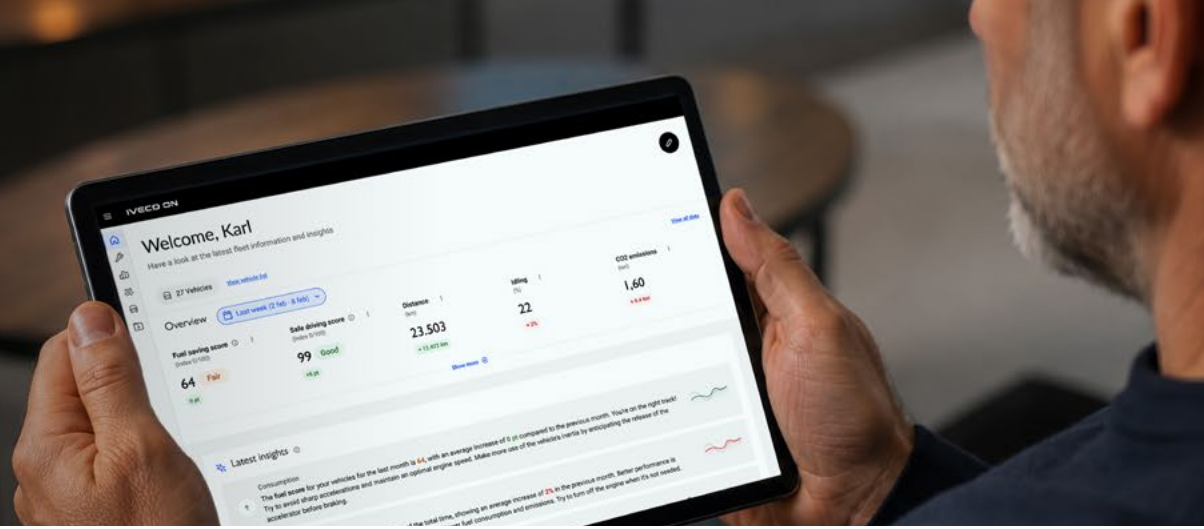

Parts & Accessories

Customise your vehicles and enhance life on board with our extensive selection of high-quality parts and services.

Connectivity

A smart way forward

Choose the connected solution that fits your business – from essential visibility to uptime support and advanced fleet insights. Add Premium services to tailor to your mission needs.

EASY
IVECO ON^{ADMIN} + Easy App

Your smart start

Access IVECO ON^{ADMIN} and the Easy App to manage your vehicles — with essential tools for vehicle administration, maintenance planning and daily operations, all within reach — anywhere, anytime.

SUPPORT
EASY + Uptime monitoring

Uptime first

Includes EASY, plus proactive vehicle monitoring through the Customer Uptime Center — enabling early detection of potential issues so we can act in advance and maximise your vehicle availability.

PERFORMANCE
SUPPORT + IVECO ON^{PRO}

Your fleet under control

Includes SUPPORT, plus IVECO ON^{PRO} for advanced insights to monitor vehicle performance and routes, reduce fuel consumption and improve driving style — helping you optimise efficiency across your entire fleet.

Premium Services: add more value to every mission

IVECO ON Web API

Integrate IVECO vehicles data into your systems.

Fleet Management

Get full control on your fleet productivity.

Tacho Data Download

Manage compliance with ease.

Professional Fuel Report

Receive detailed analytics on your fleet fuel efficiency.

Professional Safety Report

Promote safer driving and improve fleet safety.

Driver Assistant

Get the best out of the 10" infotainment with yearly extensions of connected content.

Repair & Maintenance

A well-maintained vehicle is more reliable, fuel-efficient and retains its value over time.
IVECO Repair & Maintenance helps you protect your productivity with a proactive, structured service approach. You benefit from expert support by certified IVECO technicians using dedicated tools, advanced diagnostics and up-to-date procedures—ensuring fast, precise interventions. All services use IVECO Original Parts, for consistent quality and long-term performance.

You can choose among pre-designed bundles or tailor your solutions combining the services and adding the coverages that better support your needs.

Combine the R&M services to build a contract tailored to your needs

Maintenance
Maintenance and lubricants, oils and fluid changes according to the Maintenance Plan as described in the IVECO maintenance schedule and vehicle documentation.

Wear
Covers clutch, brake pads, brake discs, brake drums or brake linings for drum brakes.

Driveline
Covers engine, fuel injection, gearbox, transmission propeller shaft and axle repairs.

Driveline Plus
Provides an intermediate level of protection, adding to the Driveline contract repairs to exhaust system, starter and alternator, other gearbox components, electricals and PTO Multipower.

Full Repair
Further raises the level of cover extending the Driveline Plus contract with repairs to the braking system (excluding wear components), clutch cylinder, suspension, heater, air conditioning, air compressor.

Additional coverage

You can further customise your cover with additional options:

ANS 24-hour assistance
Roadside assistance service for eligible breakdown events covered under your contract.

Towing service
Tow truck service conveying to the nearest repair point for repairs covered by the warranty (Towing to the nearest authorised IVECO repair point).

Auxiliary batteries
Repair and/or replacement of batteries, including ANS 24-hour callout where covered under the maintenance agreement.

Oil top up
Engine oil top-up according to the maintenance plan.

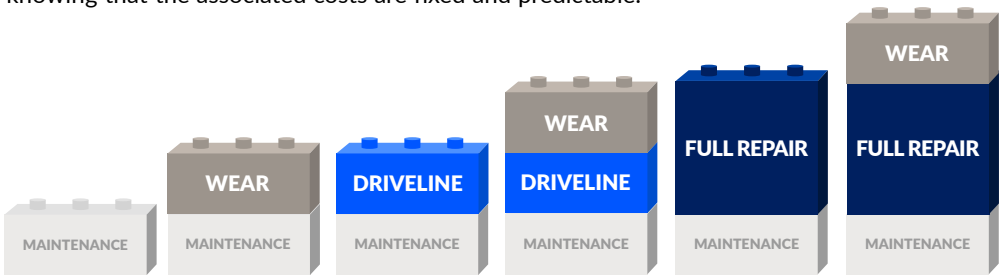

Light bulbs
Replacement of light bulbs and fuses.

Wiper blades
Replacement of windscreen wiper blades once a year.

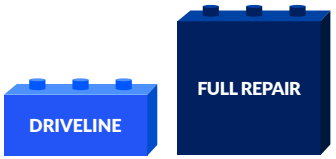

Choose and combine to fulfill your requirements

You can choose the best service levels for your business size and needs, knowing that the associated costs are fixed and predictable.

EXTENDED WARRANTY

Parts & Accessories

IVECO offers you a wide range of parts and accessories to increase productivity, enhance versatility, optimise profitability, and keep your vehicle maintenance costs under control, improving your digital life on board and increasing your comfort.

Genuine Parts

HIGH PERFORMANCE

Designed to meet IVECO standards, certified **Genuine Parts** ensure **consistent performance** and **high quality** for your vehicle, with a wide choice of components.

Each part is tested and certified to guarantee IVECO quality. Delivery comes within 24h thanks to the extended IVECO network of authorised workshop ready to support.

Reman Parts

SUSTAINABLE CHOICE

Through a dedicated and constantly evolving remanufacturing process, **IVECO Reman Parts** are restored by expert technicians to **original performance and specifications**. Each component is inspected, remanufactured and rigorously tested in line with IVECO quality standards.

Reman Parts deliver a sustainable and eco-friendly process to reduce waste and are a cost-effective solution.

Accessories

ENHANCED EXPERIENCE

IVECO Accessories offers an exclusive range of products designed to enhance the aesthetics, comfort, safety, and technological capabilities of your vehicle. Every accessory enriches and personalises your driving experience, while boosting connectivity and operational efficiency.

IVECO Accessories are easy to install and fit perfectly on the vehicle, maximise the driving experience and the versatility of the vehicle.

IVECO

Assistance Non-Stop

IVECO Non Stop

IVECO Assistance Non-Stop is just a phone call away 24 hours a day, 7 days a week to keep your IVECO X-Way and your business running.
IVECO Non-Stop is the original IVECO smartphone application that you can use to communicate with IVECO if your vehicle breaks down. Just insert your vehicle information (VIN and registration plate) and with a simple push of a button you can send a request for assistance to the IVECO Customer Uptime Center. We will take care of your request immediately, activate the nearest workshop and follow up on the vehicle's repair. Through the app you can receive updates on the progress of your vehicle's assistance.

IVECO CAPITAL

Financial Services

IVECO CAPITAL is the global financial services brand of Iveco Group, offering dealers and end-customers a comprehensive range of financing, rental, insurance and service solutions for commercial vehicles, powertrains and buses.

As an integral part of the IVECO ecosystem, IVECO CAPITAL empowers mobility through integrated and flexible solutions, helping customers seize new business opportunities and realise their full potential.
