Welcome to the city
IVECO
eJOLLY

Tailored for inner-city missions

The right fit for city centre streets with an excellent load capacity. Compact and agile, eJolly is perfect for narrow streets and restricted-traffic zones. Despite its size, it offers one of the best payloads in its class, making it ideal for deliveries and urban logistics.

With an exceptional exterior-dimension-to-cargo-volume ratio, eJolly stands among the top performers in its category.

Designed for urban professionals

eJolly is the ideal van for professionals who transport tools and goods in the city.
Its compact dimensions and quick acceleration make every drive smooth and efficient.
Purpose-built for inner-city missions, the new eJolly sets the benchmark in the mid-segment. Big payload, 100% electric, extended range, car-driving-license compatible, and designed with car-like comfort.

Compact by Design, big on capability

eJolly is the smart solution for modern urban mobility. Engineered to deliver maximum comfort and zero emissions, eJolly combines a compact footprint with surprising interior space—perfect for professionals who need efficiency without compromise. Whether navigating narrow city streets or accessing tight parking zones, eJolly is built to fit—literally and functionally—into the future of urban transport.

Your Office, On the Move — with the New eJolly

Transform your eJolly into a fully functional mobile workspace. You have a choice of one- or two-seater configurations, with essentials within easy reach. The extra cargo version also offers an optional tilting table designed to hold your laptop. Effortless productivity, wherever the job takes you.
Step into a cockpit engineered for comfort and efficiency. Heated seats provide a premium experience, keeping you warm and focused even on the coldest days.
The spacious layout offers plenty of room to work, relax, and recharge. And with integrated wireless smartphone charging, you'll stay powered up at all times.
The eJolly isn't just a vehicle. It's your office on-the-go.

Smart storage, smoother journeys

Designed with the driver in mind, the new eJolly features multiple open dashboard compartments, spacious door pockets, and a generously sized cooled storage area. Everything you need is within reach, making your workday more organised, efficient, and comfortable.

Smart, connected, and built for your workday

The eJolly keeps you in control and connected with advanced infotainment and connectivity features designed to support your daily business needs.

10" full-color touchscreen

The 10" display includes DAB radio, MP3 player and 3 USB ports.

RearView Camera

Enhance visibility and safety with a wide, unobstructed and ultra-clear view of the area behind the vehicle.

Navigation and Smart Routing

Navigation is effortless with the TOM TOM 3D maps on the 10" touchscreen, as well as Apple CarPlay™ and Android Auto™ integration. With IVECO's Smart Routing service, drivers can plan routes confidently — no more range anxiety.

Stay focused, stay connected

With fully integrated wireless Apple CarPlay™ and Android Auto™, you can navigate, call, message, and stream music directly from the vehicle's display. Use voice commands or intuitive controls to keep your hands on the wheel and your eyes on the road.

Whatever the mission, eJOLLY delivers

Spacious interior, compact exterior. Silent, sustainable, and smart. eJolly is perfectly sized for city centre streets - including restricted traffic areas - while offering one of the best payloads in its segment to help you handle every delivery and logistics mission.

Urban-optimised dimensions

With a height of just 1,930 - 1,940mm, eJolly glides effortlessly through underground garages and low-clearance urban spaces. The two available lengths, 4,980 or 5,330mm, enable a wide variety of configurations, making it ideal for last-mile delivery, logistics, and city-based operations.

Do more with every delivery

The new eJolly is built to move more load, smarter. With a maximum payload of 1,288kg*, it's engineered to help you optimise every route, reduce downtime, and boost productivity.
Thanks to its generous 6.6m³ load volume and an extended load length of up to 4 meters, you can carry longer and bulkier items with ease. The innovative bench opening design lets you make the most of the cabin space, giving you the flexibility to handle even the most demanding transport needs.

Effortless Access, maximum efficiency

The eJolly's sliding doors are designed to streamline your workflow. Their wide opening and smooth operation provide quick, convenient access to the rear cargo area—even in tight urban spaces or narrow loading bays. Whether you're loading bulky items or making frequent stops, the sliding doors make every movement faster, safer, and more ergonomic, saving time and reducing effort throughout the day.

100% Electric. 0% Noise. 100% Urban freedom.

The eJolly is built for the city. With its zero-emission electric drive, it drastically reduces both air and noise pollution, making it the perfect solution for urban mobility. Glide silently through city centers and restricted traffic zones with total peace of mind—no engine noise, no stress, just smooth, quiet performance.
Inside and out, the eJolly creates a calm and comfortable environment, ideal for long working days. Whether you're navigating busy streets or making frequent stops, its silent operation helps reduce fatigue and improve overall well-being.

*Driver's weight included in kerb weight.

Charge Simply: keep moving

Charge!

The eJolly is built to keep your business moving with minimal downtime and maximum efficiency. Thanks to its DC fast charging capability of up to 100kW, you can recover up to 60 miles of range in just 10 minutes—perfect for quick top-ups between jobs or during short breaks.
For everyday charging, the 11kW on-board charger ensures reliable performance at public AC stations, home or depot.

Go Further. Work Smarter

Fast charging times, extended range and two battery sizes to meet your autonomy needs, — all with zero noise: the new eJolly is the ideal van for professionals.
Whether you're making deliveries across the city or managing multiple stops, eJolly gives you the freedom to move without compromise: zero emissions, zero noise, and maximum uptime.

Two batteries, zero anxiety

Say goodbye to range anxiety. The 100% electric eJolly is engineered to keep up with your business, offering the flexibility professionals need to stay productive all day long.

Choose the battery that best matches your workload:
- 75kWh for up to 210 miles of range
- 49kWh for up to 130 miles of range
  (Combined WLTP range – simulated data, subject to change)

Whichever option you choose, eJolly keeps your operations running smoothly—quietly, cleanly, and without compromise.

Line Up

Find the perfect ally for your urban mission

Every city has its challenges – and eJolly is ready for them all. Built for zero-emission performance and maximum flexibility, it's the trusted partner that helps you move efficiently, sustainably and without compromise.

Last-mile urban deliveries: completed with ease

Where efficiency meets responsibility. eJolly offers all the versatility and capacity you need to keep your business moving – combining exceptional range and payload performance to make every delivery clean, quiet and cost-effective.

The perfect partner for municipality jobs

eJolly is your best companion for small urban maintenance missions. Agile and compact with instant acceleration, it is the best van in the category in terms of external dimension/volume ratio.

Extreme versatility for specialty applications

From daily operations to demanding tasks, eJolly adapts to every need.
With its generous loading volume and optimised cargo space, it's built to carry tools and equipment with ease – empowering professionals to keep the city running smoothly.

Dimensions

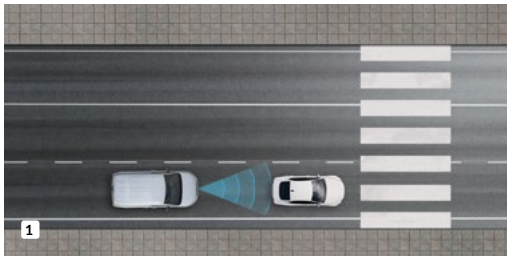

Gross vehicle weight - 3.1 - 3.2 tons						
Load volume (m^3)	**Height (mm)**	**Length (mm)**	**Motor (kW)**	**AC charge / DC charge**	**Payload* (tons)**	**Battery - Range****
5.3	1,930 - 1,935	4,980	100	11kW / 100kW	1,135 - 1,288	49kWh - 130 miles (WLTP) 75kWh - 210 miles (WLTP)

Your safe place in the urban jungle

With advanced technology, your eJolly utilises its sensors, radar, and camera to continuously monitor the road and surrounding traffic to assist with key driving functions. By helping you maintain safe distances, adapt to changing conditions, and reduce fatigue in demanding situations, it brings you a smoother, safer, and more confident driving experience – so you can focus on enjoying the journey.

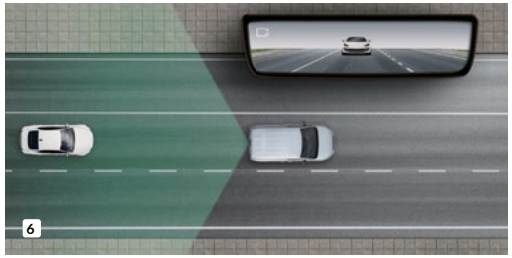

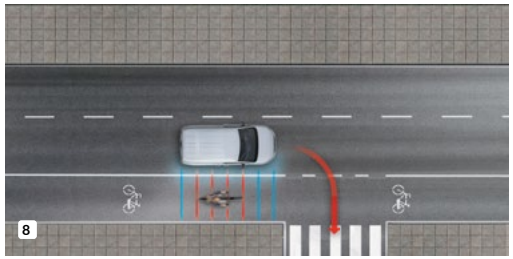

1 Adaptive Cruise Control Stop&Go
Easily activated via intuitive steering wheel controls, Adaptive Cruise Control Stop&Go automatically sets and adjusts vehicle speed to maintain a safe distance from the vehicle ahead. In case the vehicle ahead stops, it brings your vehicle to a complete stop resuming automatically when traffic begins to move.

2 Lane Keeping
Helps prevent unintentional lane departure using a forward-facing camera mounted on the windscreen. When activated and operational, the system monitors lane markings. If no turn signal is detected, it applies gentle steering corrections to keep the vehicle within lane boundaries or away from the road edge. The system provides tactile feedback through steering wheel torque, accompanied by visual and audible alerts on the instrument cluster, reminding the driver to stay within the lane.

3 Intelligent Speed Assist
Helps prevent speed violations by automatically setting the speed limiter based on information from Traffic Sign Recognition. Using the forward-facing camera, the system detects speed limit signs and adjusts the limiter accordingly.

4 Front, rear and Flankguard Sensors
Navigate tight spaces and busy roads with ease. Front and rear sensors, combined with lateral detection (Flankguard), monitor your surroundings and alert you to nearby obstacles—even along the sides.

5 Advanced Driver Distraction Warning
Enhances road safety by detecting signs of driver distraction, drowsiness or mobile phone use. A discreet camera on the driver-side pillar continuously monitors attentiveness. If fatigue or inattention is detected, the system triggers visual and acoustic alerts, prompting the driver to rest and refocus. Designed in line with the latest GSR-C regulations, it helps prevent accidents while protecting privacy.
The system does not record or store facial images, ensuring full compliance with data protection standards.

6 Multiangle Digital Central Rear View Mirror
A new perspective experience next-level visibility. The innovative digital rear-view mirror displays real-time rear and side views, giving you a clear, unobstructed look at your blind spots and surroundings—right where you need it most.

7 180° Rear Camera with Smart Zoom and Top View
See more, react faster. A high-definition 180° rear-view camera displays a wide-angle image and vehicle top view on the 10" touchscreen. As you approach an obstacle, the system automatically zooms in for a precise view, while audible alerts keep you informed of the distance.

8 Blind Spot Assist
Keeps an eye on adjacent lanes, warning you of vehicles hidden from view.

IVECO Services Solutions

At IVECO, we deliver mobility solutions that best meet your needs. Our goal is to help you reduce Total Cost of Ownership while increasing productivity by focusing on vehicle health and enhancing the driver experience, through an integrated portfolio designed to support your mission.

Uptime

Unexpected stops cost you. IVECO Uptime prevents them. Through continuous monitoring and remote diagnostics delivered by the IVECO Uptime Center and network, we reduce unplanned downtime by up to 24%.

eMobility

Managing an electric fleet requires new expertise. IVECO eMobility brings it all together. Combining smart routing, charging solutions, uptime services and 24/7 monitoring, it keeps operations productive and total cost under control. We already monitor 4,000+ electric vehicles.

Productivity & Efficiency

In transport, profitability depends on daily decisions. IVECO Productivity & Efficiency gives you the insights to make them. With vehicle data visibility and analytics, it helps reduce costs by up to 5% while improving safety, routes and compliance.

Driver Care

Drivers operate under constant pressure. IVECO Driver Care reduces complexity and cognitive load. Through voice interaction, connected navigation and real-time guidance, it keeps drivers focused. Accidents can be reduced up to 5%.

Safety & Security

Managing risk requires visibility and control. IVECO Safety & Security delivers both. With IVECO ON connectivity and continuous monitoring, it enables early detection of unsafe behaviour and reduces accident exposure by up to 25%.

Parts & Accessories

Our extensive offer of high-quality parts and services enables you to customise your vehicle and enhance your life on board.

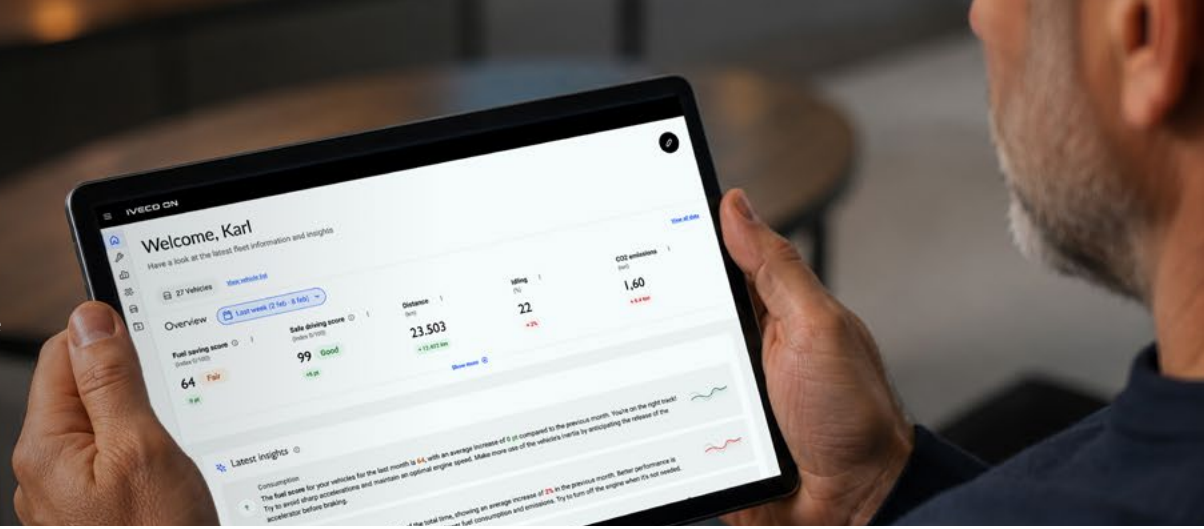

Connectivity

A smart way forward

Choose the connected solution that fits your business – from essential visibility to uptime support and advanced fleet insights.
Add Premium services to tailor to your mission needs.

Standard service bundle

eStart
Essential tools to monitor and control your EV, boosting productivity, efficiency and sustainability.

Premium services

Tailor your mobility solution with powerful add-ons:
