Let the adventure begin

Open the two sliding doors and step inside for the adventure of a lifetime. The new Caddy is the perfect companion, adapting effortlessly to your daily life. The two-part bench seat in the second row can be easily folded down and double-folded, or even removed completely. In addition, the bench and the single seat can also be removed independently of each other. This leaves plenty of space for bulky loads or even small items of furniture. You can also add a towbar¹ to free up more space at the rear.

Helping you to be a better driver

Adaptive Cruise Control (ACC).^{1,2}

Adaptive Cruise Control uses a front radar to measure the distance (up to 120 metres) and speed relative to vehicles driving ahead. It automatically regulates the pre-set distance. ACC also includes the Front Assist with City Emergency Braking System. This detects critical distances, warns of hazardous situations and when necessary, a speed of up to 18 miles per hour triggers emergency braking.

Front Assist with Pedestrian Monitoring and City Emergency Braking System.¹

Detects pedestrians, cyclists and vehicles in the direction of travel and alerts the driver to hazardous situations. If the driver doesn't react in time, the system responds with automatic emergency braking, and can even perform an evasive manoeuvre in critical driving situations.

Parking sensors with Park Assist.^{1,2}

As part of Park Assist, Parking sensors monitor the vehicle's sides and alerts you with visual and audible warnings if you're getting too close to other vehicles, pillars, walls or pedestrians.

Emergency Assist.¹

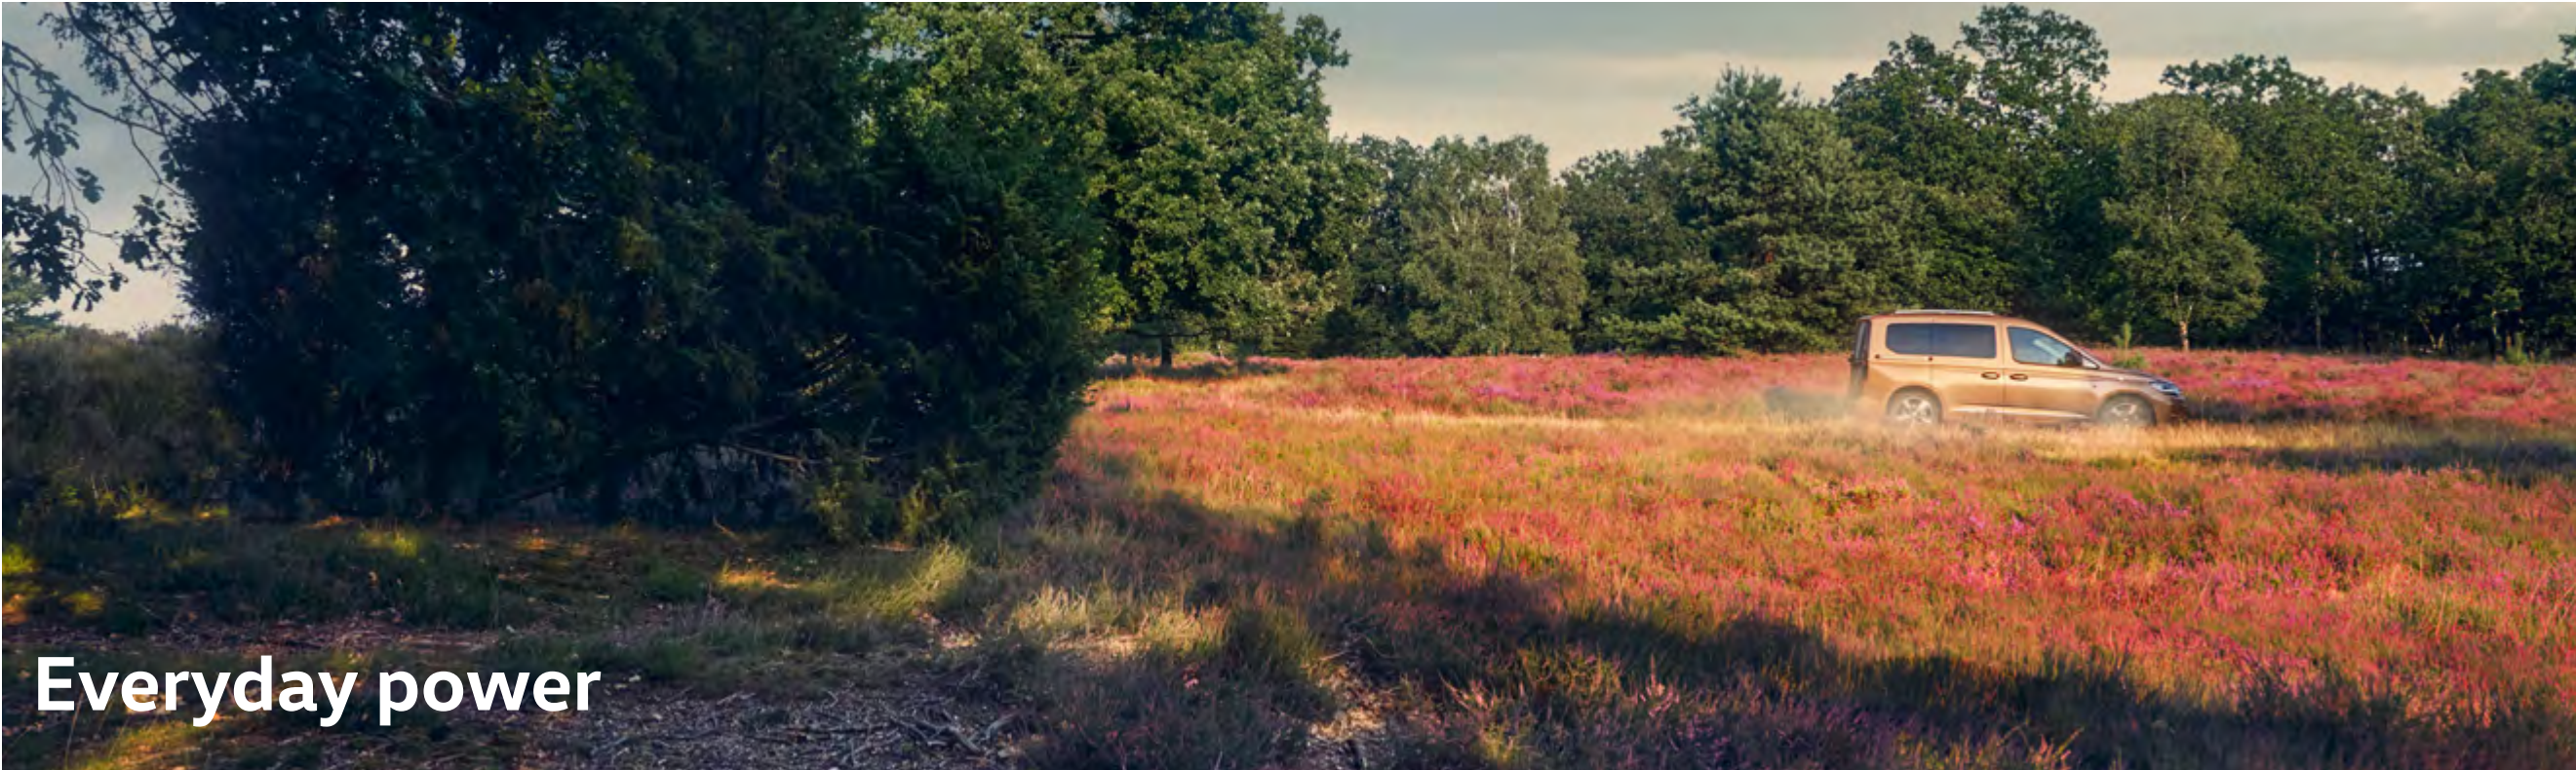

Enhances safety when the driver is incapacitated. The system initially reacts to inactivity by emitting a warning tone, vibrating, and then performing a safe braking manoeuvre.

Traffic Sign Recognition.¹

Detects road signs and informs the driver.

¹ Within system thresholds. ² Optional at extra cost.

Everyday power

Engines. The Caddy's have a choice of petrol and diesel engines, connected to a DSG automatic gearbox, that allows you to choose the engine that best suits your needs.

Dual-clutch gearbox (DSG). The Caddy is fitted with an adaptive 7-speed dual-clutch gearbox. This enables fully automatic, smooth gear changes without interruption of tractive power, and it also adapts to the driver's driving style. You can also shift up and down using paddle switches on the multifunction steering wheel.

Improved emission control. Innovative AdBlue® twin dosing significantly reduces the NO_x emissions from TDI engines compared to the previous model. This is achieved through the selective double injection of AdBlue® upstream of the two SCR catalytic converters, which are arranged in series.

The Caddy Life

Children rarely sit still. Doors open, doors closed, lights on, lights off, music up, music down: The Caddy comes along for the ride! For example, the two single seats¹ in the third row can be removed, either together or separately, to make way for bulky items. Safety is and remains our priority. Which is why this hard-wearing all-rounder comes with curtain airbags for the outer seats in all rows as standard. Extra comfort comes courtesy of Front Assist with Pedestrian Monitoring and City Emergency Braking System² and Lane Assist^{2,3}, which performs counter steering assistance to warn the driver if the vehicle is straying out of its chosen lane.

¹ Standard equipment in the new Maxi and the new Life Maxi. Optional at extra cost in the Caddy and Caddy Life SWB models. ² Within the system thresholds. ³ The driver must be prepared at all times to override the assist systems and is not released from their responsibility to drive with the utmost care.

Volkswagen Commercial Vehicles may change RRP's at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen authorised Van Centre.

1 Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Data correct at 01.04.2026. Figures quoted are for a range of configurations (including non-UK) and are subject to change due to ongoing approvals/changes. Please consult your authorised Volkswagen Van Centre for further information.

2 From 1 April 2021, the official CO₂ emissions values used to calculate Vehicle Excise Duty (VED) charges will change for all passenger car registrations in the UK, due to a change in the method of testing. This will affect the Recommended 'On The Road' (ROTR) price you pay (in most circumstances, prices will increase). The Recommended 'On The Road' prices and any VED charges quoted reflect the VED charges which apply to vehicles registered after 1 April 2021. Choice of wheels and other options may affect fuel consumption, BIK and emissions data (which may affect the amount of VED payable and therefore the ROTR price). The price and charges you pay may differ from any prices or charges displayed or quoted before 1 April 2021.
